National Learning Resource Centre (NLRC) aims and settles to give ability-reinforcing

education to **officers/officials of Central Government, State Governments, Public Sector Undertakings and Private Limited Companies etc.** NLRC has arranged such

authentic online workshops in the past, which were acknowledged by executives of

ST2.

different departments. It is now, that we have come up with Residential Programs to deliver

competency-enhancing learning and growth This workshop is for the benefit of staff dealing

with Vigilance/ Disciplinary Proceedings in Government, Semi Government, Autonomous

Bodies and Public Sector undertakings etc.

NLRC is also organizing a residential workshop on **IoT i.e, internet of Things at Udaipur,**

Rajasthan from 22nd March 2023 to 25th March 2023. This event will help to explore

the latest development in the Internet of Things (IoT) , Smart Transportation, Digital

Transformation, Cyber Security and Artificial intelligence. The workshop mainly helps the

senior leaders throughout the IoT industry to forge strong and everlasting business

relationships and provide a platform for all industry experts to network and exchange relevant information with each other,

In continuation of our efforts, NLRC is also organizing a residential workshop on

Arbitration and Dispute resolution, at Udaipur, Rajasthan from 22nd March 2023 to

25th March 2023. The workshop looks forward in enhancing each officers growth. The

event looks forward to cover Dispute Resolution with a focus on Arbitration and Alternative

Dispute Resolution(ADR) , Dispute Resolution Options, Relative advantages and disadvantages of various ADR methods, and Drafting Arbitration clauses.

The present workshops will also focus on developing/improving leadership qualities in

participants attending the workshop. This program will lead to improvement not only in job

performance but also in the knowledge, personality, attitude, and behavior of an executive, which will benefit not only the executive but also the organization.

We hope to hear from you soon, as the arrangements needs to be taken care of in a progressive manner, beforehand well in advance.

For any further queries, feel free to reach out.

Thanks and Regards

Rebecca Gabriel

RESIDENTIAL WORKSHOP ON ARBITRATION AND DISPUTE RESOLUTION AT UDAIPUR, RAJASTHAN.

National Learning Resource Centre (NLRC) aims and settles to give ability-reinforcing education to officers/officials of Central Government, State Governments, Public Sector Undertakings and Private Limited Companies. NLRC has arranged such authentic online workshops in the past, which were acknowledged by executives of different departments. It is now, that we have come up with Residential Programs to deliver competency-enhancing learning and growth.

Human assets of various organizations are expected to undergo regular training in order to be competitive enough to face impromptu challenges in the external as well as internal environment. Strategically investing in your employee's training and development, nurturing their individual talents, and building their skill set, helps your organization achieve its desired results, enhances your company's culture, and assists your leaders in a better direction.

Executive Development Programs performed through NLRC are delivered on a persistent mastering philosophy and are ideal for working executives, who are constrained for time and are unable to excel in the latest technologies. NLRC provides a chance to all such executives to keep updated on the latest managerial tools via the latest management techniques.

In Continuation of our efforts, NLRC is organizing a residential workshop on **Arbitration and Dispute resolution at Udaipur, Rajasthan from 22nd March 2023 to 25th March 2023**. This event will help the officers at the managerial level to explore "Dispute resolution methods with a focus on

- Arbitration and Alternative Dispute Resolution (ADR)
- Dispute Resolution Options
- Relative advantages and disadvantages of various ADR methods
- Arbitration: Historical Perspective, Types, Basic Concepts and leading Caselaw
- Drafting arbitration clauses

Speaker: Mr. Ajay Thomas

Mr. Ajay is an Independent Arbitrator and ADR consultant. He was the inaugural Registrar and Director of Legal Affairs at the Oman Commercial Arbitration Centre (OAC) in Muscat. He has had the unique privilege of working with three of the world's leading Arbitration institutions (LCIA, SIAC and SCMA) and has over nineteen years of experience as an arbitration administrator, arbitrator, advocate, and law professor. He is a member of the ICC Commission on Arbitration and ADR, Paris

and is the immediate past vice chairman of the ICC Court of Arbitration's India Arbitration group. He has graduated from the National University of Singapore (LLM) specializing in arbitration and maritime laws, and the University of Goa (LLB). Mr. Ajay is on the International Editorial Board of the Brazilian Journal of Alternative Dispute Resolution (RBADR) and was Hong Kong 45's Regional Ambassador for India.

RESIDENTIAL WORKSHOP ON INTERNET OF THINGS (IoT) AT UDAIPUR, RAJASTHAN.

National Learning Resource Centre (NLRC) aims and settles to give ability-reinforcing education to officers/officials of Central Government, State Governments, Public Sector Undertakings and Private Limited Companies etc. NLRC has arranged such authentic online workshops in the past, which were acknowledged by executives of different departments. It is now, that we have come up with Residential Programs to deliver competency-enhancing learning and growth.

Human assets of various organizations are expected to undergo regular training in order to be competitive enough to face impromptu challenges in the external as well as internal environment. Strategically investing in your employee's training and development, nurturing their individual talents, and building their skill set, helps your organization achieve its desired results, enhances your company's culture, and assists your leaders in a better direction.

Executive Development Programs performed through NLRC are delivered on a persistent mastering philosophy and are ideal for working executives, who are constrained for time and are unable to excel in the latest technologies. NLRC provides a chance to all such executives to keep updated on the latest managerial tools via the latest management techniques.

In Continuation of our efforts, NLRC is organizing a residential workshop on IoT i.e., Internet of Things at Udaipur, Rajasthan from 22nd March 2023 to 25th March 2023. This event will help to explore the latest development in the Internet of Things (IoT), Smart Transportation, Digital Transformation, Cybersecurity, and Artificial Intelligence. The workshop helps the senior leaders throughout the IoT industry to forge strong and everlasting business relationships and provide a platform for all Industry Experts to network and exchange relevant information with each other. The Internet of Things (IoT) refers to a vast number of "things" that are connected to the internet so they can share data with other things – IoT applications, connected devices, industrial machines and more. Many industries use IoT to understand consumer needs in real-time, become more responsive, improve machine and system quality on the fly, streamline operations and discover innovative ways to operate as part of their digital transformation efforts. IoT applications are used to address many real-world issues – traffic congestion, city services, economic development, citizen engagement, and public safety and security. Smart cities often embed IoT sensors into the physical infrastructure, such as

streetlights, water meters and traffic signals. With the Internet of Things (IoT), we can understand the context (the time and place of the customer) to identify when we're certain the customer needs help or an incentive to purchase, and we can respond proactively. The workshop is for the benefit of Officers/officials of Government/ Non-Govt organizations/Private Companies who look after the work of Internet Technologies. The topics focused on in the workshop will be helpful in understanding the role of IoT in different aspects of day-to-day work, making things easy to handle, and much more.

Speaker: Mr Parkash Bishth

Mr Parkash Bishth has over 15 years of experience in techno Sales, IoT Product Development & Manufacturing, Research & Development on IoT Devices and Software integration. out of which he has devoted the initial 5 years in Telecom Project sites (Team & Vendor Management), the next 6 years in Research & Development of IoT Based devices (Technology Development, Procurement & Operation Management) and the last 5 years to business operations & empanelment's of products with different state authorities and new custom developments of IoT devices as per industry requirements with continuous improvements & feature upgradations on products.

Apart from the development, he kept on learning new verticals of Data Analytics and Data Visualization using Python & Power BI tools. Completed certification course in IBM Data Science offered by Coursera. He has a good understanding of new processes and flows & loves to work with new technologies and challenges which will be enhancing my skills further in that domain.
